The vine

Plot /climat Champs Goudins and Le Pré de la Folie

History In old French vernacular, goudin or gaudin meant woods and these woods may have consisted in leafy species of trees such as referred to in Le Pré de la Folie because the word "fou" for a long time was the name for the beech-tree.

Soil The land at the foot of the slope consists in a deep layer of clay and alluvium on a limestone sub-stratum.

Our plot(s) 18a47ca and 5a82ca planted in 1962 and 1973 respectively.

The wine

100% Pinot Noir from handpicked grapes and raised in oak casks.

Taste On the nose there is a delicate, fruity aroma of small red berries and morello cherries; it is elegant and refined in the mouth with a smooth and prolonged finish.

Serving temperature 15/16°C. Recent vintages may be decanted to enhance the aroma.

The vintage

The end of the winter was very cold ; nice weather early april was the best contitions for buds to come out ; end of may, the vines are in bloom. Hot and dry conditions in july and august helped the grapes mature quickly. We started harvest on the 31st of august on Beaune Clos des Mouches white. Dark in colour, cassis or blackcurrant aromas, rich and concentrated sensation in the mouth, well balanced acidity and full tannins.
